Sage FAS Barcode Reader: Motorola® MC55 Bronze Extended Warranty

The Motorola **Service from the Start—Bronze with Comprehensive Coverage*** is a unique prepaid Service Center Support program that extends normal wear and tear coverage by including accidental breakage during normal use of your Motorola MC55. Purchased within 30 days of your Motorola hardware, this three-year service agreement can significantly reduce your unexpected repair charges—helping to ensure both peace of mind and investment protection.

Service from the Start—Bronze with Comprehensive Coverage provides for product repair at a Motorola-operated facility that employs the same test equipment and fixtures used in the manufacturing of the equipment. Products are diagnosed and restored to factory specifications through:

- Repairs, alignments, adjustments, and restorations, if appropriate, of any covered product(s) that malfunctions while being used within the operational and environmental parameters specified by Motorola.
- Product updates, if applicable, as may be defined periodically by a Motorola Engineering Change Order.

*The Standard Warranty, Extended Warranty, and Service from the Start Bronze + Comprehensive Coverage are provided exclusively by and subject to the terms and conditions of Motorola, Inc. Additional fees apply. Customer will handle any warranty claims directly with Motorola. Coverage excludes consumable parts and accessories, damages from natural or man-made disasters, firmware upgrades, reprogramming, product configuration, operation outside the product’s operational and environmental specifications, or repair by a third party. Coverage must be purchased within 30 days of hardware purchase.
